

## Visual changes:

### Existing speakON

### **NEW** speakON XX Series

- new **shape** of inner dome (design is registered)
- bigger **NEUTRIK** wordmark in correct typefont
- speakON** trademark instead of **LIECHTENSTEIN**

- New **shape of insulation dividers** and other type font / orientation for the labeling of contacts.

- Article number and approval marks** now **laser engraved** on the side and no longer on the back of the flange

## IEC 62368-1 compliance due to:

- UL 94 V-0 materials
- component certification according to IEC 61984
